

Position Description

Position Title: Operations Manager	Date: June 2019
Reports to: Regional Manager, Queensland	Location: CQLX
Department: Operations	Direct Reports: Site employees

Position Purpose

AAM Investment Group is an Australian owned and operated provider of investment, asset management and consultancy services. We structure, operate and manage investments across agriculture, rural and commercial property and regionally based infrastructure, drawing on the team's knowledge and experience in these sectors to improve investment performance through operational and technological efficiencies and improved management.

The Operations Manager achieves commercial business outcomes through the effective management of day to day operations of the Livestock Exchange (LX) facilities, leading a team of skilled staff in the delivery of business operations and services, facility management and maintenance, finance management, meeting and exceeding compliance with WH&S relevant industry legislation and practices. The Operations Manager is responsible for the oversight and management of operational sites, which may include the management of multiple sites within a region and encompass a diverse range of high volume ancillary and offsite services.

The Operations Manager plays an integral part in our succession plan and is expected to lead and mentor all reporting staff at a senior level within the organisation. This position may require regular travel to multiple sites as well as interstate travel when required.

Key Responsibilities

- Oversee and manage the site or multiple sites in accordance with the Safety Management System and Safety related policies;
- Provide leadership, development and coaching to a team of staff to meet performance objectives and KPIs;
- Oversee, lead and manage business and facility operations to deliver a comprehensive range of services;
- Oversee and manage sale day activities ensuring the efficient throughput of livestock, monitor and measure sale day financial outcomes;
- Measure and monitor the efficient throughput of livestock, related to sale day and non-sale day activities;
- Develop comprehensive business performance, compliance and financial reports;
- Measure and monitor operational and capital expenditure in accordance to approved budgets;
- Ensure any potential animal welfare incidents are addressed, reported and recorded;
- Ensure maintenance activities and documentation of the site or sites are maintained to a high standard;
- Oversee and manage site operational compliance requirements in relation to WH&S, relevant legislation, licencing and codes of practice, to meet and exceed organisational expectations;
- Lead and mentor large teams to achieve quality, safety, environment, animal welfare, and biosecurity outcomes in accordance with company policy and procedures;
- Identify and communicate new business opportunities through effective community engagement and market analysis, build and enhance positive relationships with the varied and diverse third parties involved in the operation of the LX facility;
- Enhance positive relationships with third parties involved in the operation of LX facilities;
- Promote the regional economic value of LX facilities through active community engagement;
- Work with internal and external stakeholders and contribute to the timely delivery of capital projects;
- AAMIG is committed to providing a safe and healthy workplace for all staff, clients, and visitors to our facilities. All staff are required to contribute to and promote a continuous workplace health and safety culture.
